1. Introduction

The 6th Asian Beach Games Sanya 2026 Pharmacy Guide (hereinafter referred to as “the Guide”) contains a list of medicines with instructions that will be available at the Clinic for the 6th Asian Beach Games Sanya 2026 (hereinafter referred to as “Sanya 2026” or “the Games”). The Guide aims to provide medical personnel with essential information about each medicine and the World Anti-Doping Agency (WADA) permitted or prohibited status for each medicine. The Guide is jointly developed by the Medical Committee of the Olympic Council of Asia (OCA) and the 6th Asian Beach Games Sanya 2026 Organising Committee (SABGOC).

Experts in pharmaceuticals and other clinical fields were invited to review the data herein. However, as such data is subject to continued update, doctors must base the application of such data on their expertise and clinical practice. SABGOC will not be held liable for any healthcare practices performed under this Guide or any unauthorised use of this Guide by any third parties.

According to the WADA 2026 International Standard for the Prohibited List of the World Anti-Doping Code, the medicines listed in the Guide are accompanied by instructions on their prohibited status in sport. For medicines, or their alternatives, that are not listed in the Guide or cannot otherwise be provided by the Clinic, SABGOC will spare no effort to provide assistance.

2. Clinic Pharmacy

2.1. Location and Opening Hour

The Clinic, which includes a pharmacy, is set up in the Athletes Village. The pharmacy will be operational from 15 April 2026 to 3 May 2026. Pharmacy services are accessible to all residents of the Athletes Village during the opening hours.

2.2. Service Policy

The Clinic Pharmacy will provide required medicines only if: (1) The patient holds a prescription for medicines containing no prohibited substances from Clinic doctors; (2) the patient holds a prescription issued by a medical personnel from his/her NOC. Prescriptions for subsequent doses usually cover up to seven (7) days or a full course of treatment. It is recommended that individuals with past medical history bring sufficient quantities of essential medicines to meet their needs for medication use during their stay in China and return trip back to their destinations.

3. Prescribing Procedure

3.1. Prescribing Procedure for NOC Medical Personnel

All NOC medical personnel should be registered with SABGOC in advance to obtain a permit for providing legal medical services in China for athletes and other members of their own delegations. Upon obtaining

the permit, NOC medical personnel can complete the *NOC Medical Personnel Prescription Form* (see Table 1). All information on the form must be provided completely and accurately, printed on paper and signed by the concerned NOC medical personnel. The printed *NOC Medical Personnel Prescription Form* can be picked up at the Clinic.

Table 1. NOC Medical Personnel Prescription Form

For prescribing prohibited substances, please read and sign the declarations below.

Consent and signature for the supply of WADA prohibited medication(s) by the prescribing doctor and dispensing pharmacist:

I have informed the athlete that the medication(s) being prescribed is/are prohibited according to the WADA 2026 Prohibited List and that a Therapeutic Use Exemption (TUE) must be obtained from the International Testing Agency (ITA) TUE Committee.

Prescribing Doctor's Signature:

Dispensing Pharmacist's Signature:

Consent to receipt of WADA prohibited medication(s) by the athlete:

I confirm that the medication(s) received is/are prohibited according to the WADA 2026 Prohibited List. I am responsible for applying for and obtaining a Therapeutic Use Exemption (TUE) from the International Testing Agency TUE Committee prior to taking the medication(s). I understand that failure to obtain a valid TUE in advance may result in an Anti-Doping Rule Violation (ADRV).

Athlete's Signature:

Authorised Representative's Signature (for an athlete under 18 years of age):

3.2. Prescribing Opioid Medications

Prescriptions for opioid medications can only be written by the doctors at the Clinic who are granted privileges to prescribe anaesthetic drugs and psychotropic drugs. If an opioid prescription is required, the patient must undergo an evaluation by a doctor at the Clinic should the patient's condition warrant such treatment.

4. Prescribing WADA Prohibited Drugs

Medications listed on the WADA 2026 International Standard for the Prohibited List of the World Anti-Doping Code are prohibited for all athletes who will compete in the Games, except where a Therapeutic Use Exemption (TUE) has been granted or in emergency situations. In non-emergency situations, athletes must not use prohibited substances

without a pre-approved TUE. In case of any medical emergency, the athlete's health shall be given absolute priority and under no circumstances shall treatment be delayed. A retroactive TUE must be applied for within 1 hour after the emergency treatment.

4.1. Prescribing WADA Prohibited Drugs in the Clinic

If prohibited drugs are prescribed to an athlete at the Clinic, the athlete and the concerned NOC medical personnel must sign the *Informed Consent for Using Medications Containing Prohibited Substances* (see Table 2) to acknowledge consent to receiving the prohibited drugs. The prescribing doctor and dispensing pharmacist must also sign the form to acknowledge the dispensing of prohibited drugs. Failure to apply for and obtain a TUE in advance may result in a rejection to dispense the prohibited drugs.

4.2. Prescribing WADA Prohibited Drugs in Competition Venues for Emergency Use

If WADA prohibited drugs must be used for an emergency within competition venues, the prescribing doctor shall inform the Venue Manager on Medical Services and SABGOC immediately after the treatment. SABGOC should pass on the information to the OCA, and the OCA and SABGOC will help the concerned athletes apply for a retroactive TUE.

Table 2. Informed Consent for Using Medications Containing Prohibited Substances

Name		Gender		Age	
Nationality		SABGIAC Number			
<p>To the patient and/or his or her authorised representative:</p> <p>According to relevant usage regulations, the following medication(s) is/are included in the WADA 2026 Prohibited List. However, concerning the medical condition, the use of this/these medication(s) may be necessary (with no alternative available). The athlete-patient will bear any consequences resulting from the use of this/these medication(s). The athlete-patient also has the right to freely choose whether or not to use this/these medication(s).</p>					
Prescribing Doctor	<p>Informed Consent:</p> <p>Due to the medical condition, it is necessary to use the following medication: (Medication Name, Dosage Form, Dosage Strength, etc.). I have informed the athlete that the medication(s) being prescribed is/are prohibited according to the WADA 2026 International Standard for the Prohibited List of the World Anti-Doping Code and that a Therapeutic Use Exemption (TUE) must be obtained from the International Testing Agency TUE Committee.</p> <p>Doctor's Signature:</p> <p>Date (DD/MM/YYYY)</p>				
	<p>Acknowledgement:</p> <p>We have been thoroughly informed by the doctor of the treatment medication. We understand the doctor's disclosure, acknowledge this information, and confirm by signature.</p>				

Athlete or Authorised Representative	I agree to use the medication and accept full responsibility for all potential consequences arising from its use. I acknowledge that, according to the WADA 2026 International Standard for the Prohibited List of the World Anti-Doping Code, the medication I am receiving is prohibited. I am responsible for applying for a Therapeutic Use Exemption (TUE) from the International Testing Agency TUE Committee prior to taking the medication(s). I understand that failure to obtain a TUE may result in an Anti-Doping Rule Violation (ADRV). Signature of Athlete or Authorised Representative: Date (DD/MM/YYYY)	I do not agree to use the medication and accept responsibility for any adverse consequences arising from not using it. Signature of Athlete or Authorised Representative: Date (DD/MM/YYYY)
--	---	---

Before prescribing prohibited substances, please read and sign the declarations below.

Consent and signature for the supply of WADA prohibited medication(s) by the prescribing doctor and dispensing pharmacist:

I have informed the athlete that the medication(s) being prescribed is/are prohibited according to the WADA 2026 International Standard for the Prohibited List of the World Anti-Doping Code and that a Therapeutic

Use Exemption (TUE) must be obtained from the International Testing Agency (ITA) TUE Committee.

Prescribing Doctor's Signature:

Dispensing Pharmacist's Signature:

Consent to receipt of WADA prohibited medication(s) by the athlete:

I confirm that the medication(s) received is/are prohibited according to the WADA 2026 International Standard for the Prohibited List of the World Anti-Doping Code. I am responsible for applying for and obtaining a Therapeutic Use Exemption (TUE) from the International Testing Agency TUE Committee prior to taking the medication(s). I understand that failure to obtain a valid TUE in advance may result in an Anti-Doping Rule Violation (ADRV).

Athlete's Signature:

Authorised Representative's Signature (for an athlete under 18 years of age):

5. Needle Policy of SABGOC

Sanya 2026 is "needle-free" for all participating athletes. Needles must not be used except by:

(1) Medically qualified practitioners for the clinically justified treatment of injury, illness, or other medical conditions (for which a valid TUE may be required);

(2) Those requiring auto-injection therapy for an established medical condition with a valid TUE, e.g. for insulin-dependent diabetes.

It is the responsibility of each athlete, his/her entourage, and each NOC to ensure compliance with this Needle Policy, in particular:

(1) Any needles, and associated clinical materials, intended for use by members of the NOC delegation are stored in a central secured location, access to which is restricted to authorised medical personnel of the NOC delegation. Athletes with a valid TUE for the use of insulin, and non-athletes requiring other forms of auto-injection, may keep the appropriate materials with them if safely stored and disposed of in accordance with Point (2) below.

(2) All used needles and associated materials (vials, syringes and swabs) are safely disposed of in an appropriate bio-hazards container (e.g. “sharps bin”). If necessary, these may be procured from the Clinic in the Athletes Village.

(3) During the Games (i.e., from the opening of the Athletes Village on 15 April 2026 until the day of the Closing Ceremony on 30 April 2026), any athlete receiving an injection must complete the *Injection Declaration Form* (see Table 3) and e-mail it to medical@sanya2026.cn by noon on the day following the injection. The OCA Medical Committee will handle these submissions. This applies to all injections received by athletes during the Games.

(4) The *Injection Declaration Form* must be completed legibly in English and include any additional evidence attesting to the need for injection

therapy (e.g., imaging or laboratory results). The fully completed form may be submitted via e-mail.

(5) An *Injection Declaration Form* is not required if the injection is administered by a medically qualified practitioner from SABGOC. Acupuncture or use of dry needling techniques are not considered a medical injection and thus an *Injection Declaration Form* is not required for such treatments.

Table 3. Injection Declaration Form

Please note that this *Injection Declaration Form* does not constitute a Therapeutic Use Exemption (TUE) for the use of any Prohibited Substance.

Athlete	
Name of Athlete Receiving Injection:	
NOC Delegation:	Sport/Discipline:
Date of Birth	Gender: <input type="checkbox"/> Male <input type="checkbox"/> Female
Injection	
Substance Injected:	
Date and Location of Injection:	
Date of Next Competition:	
Medical Justification	

Justification for injection, including clinical history and diagnosis (include confirmatory evidence when available):	
Person Administering Injection	
Name, mobile number and e-mail address of the person who has administered the injection:	
Speciality:	Licensed to Practise in:
Signature or submission of form by the person who has administered the injection: By my online submission or signature below, I hereby confirm that the information in this form is true and accurate, and that the injection was medically justified and necessary, and administered in accordance with the IOC Needle Policy, including the safe disposal of needles and associated materials. I have understood and informed athletes of the policy on the use of Needle Policy of SABGOC. Signature: Date:	

Notes:

1. The athlete in question as the case may be, the athlete's legal representative(s) and/or the Chef de Mission.
2. Please complete this form and e-mail it to: medical@sanya2026.cn

Justification of Injections:

(1) There is, as a matter of principle, no justification for any Athlete, coach or other non-medically qualified person to administer an injection. The only exception is auto-injection, by those Athletes with an

established clinical condition requiring auto-injection and a valid corresponding TUE.

(2) Injections by medically qualified person are permitted only when there is a clinically justified reason for such an intervention as determined by the OCA Medical Committee. All completed Injection Declaration Forms will be reviewed by the OCA Medical Committee.

(3) Any concerns identified as a result will prompt a review of the rationale and justification for the treatment by a panel of physicians convened by the OCA. Ordinarily, this review will include a meeting with the practitioner(s) involved in the administration of the injection.

(4) Based on the result of the aforementioned review, the OCA Medical Committee shall decide whether an injection shall be considered as justified. Such decision shall be final and binding in respect of the Games, and is not subject to a challenge.

Failure to comply with the Needle Policy of SABGOC may result in the athlete(s), support personnel of the athlete(s), and other members of its delegation as well as the person(s) having administered the injection being exposed to risks, such as disciplinary measures and additional sanctions, as determined by the OCA Medical Committee.

If the relevant NOC, International Federation (IF), or Asian Federation (AF) also has similar rules regarding the subject matter dealt with herein, the rules of the relevant NOC or IF/AF shall also apply. Any conflict between such rules and the present Policy during the Games shall be resolved by the OCA Medical Committee.

6. Declaration of Medicines and Medical Devices

To meet the needs of NOC delegations or for personal use during the Games, all medicines and medical devices that need to be brought into China must follow related laws and regulations on the management of medicines and medical devices in China. For detailed information about the list of prohibited medicines, and declaration procedures regarding medicines and medical devices for the Games, refer to the *Freight and Customs Guide for the 6th Asian Beach Games Sanya 2026*.

7. Storage and Safe Use of Medicines

NOC medical personnel are responsible for the storage and safety of all medications and related medical belongings. SABGOC is not responsible for, and bears no liability related to the storage or safety of NOCs' medications and related medical belongings.

All medications must be stored safely and the original packaging should be kept intact and undamaged before use. The medications can only be used by members of the same NOC delegation. NOC medical personnel should ensure the safe use of medications.

Appendix: Medicine List for Clinic

Name	Dosage Form and Strength	Prohibited by WADA?
1. Pain and Inflammation Medications		
1.1 Non-Opioid Analgesics and Non-Steroidal Anti-Inflammatory Drugs (NSAIDs)		
Celecoxib Capsules	Capsule: 200mg	No
Etoricoxib	Tablet: 60mg	No
Ibuprofen	Tablet: 200mg	No
Paracetamol	Tablet: 500mg	No
Diclofenac	Topical Gel: 20g (1%)	No
	Tablet: 25mg	
1.2 Opioid Analgesics		
Morphine Hydrochloride Injection	Injection: 1mL:10mg/ampoule (Morphine Hydrochloride)	Prohibited in-competition
Tramadol Hydrochloride	Sustained-Release Tablet: 100mg	Prohibited in-competition
	Injection: 2mL:100mg	
1.3 Medications for Neuropathic Pain		
Gabapentin Capsules	Tablet: 300mg	No
1.4 Intra-articular Corticosteroids		
Triamcinolone Acetonide Injection	Injection: 40mg:1mL	Prohibited in-competition
Hydrocortisone Sodium Succinate for Injection (adjustable	Injection: 100mg/ampoule	Prohibited in-competition

strength/formulation)		
2. Anti-Allergy Medications		
Loratadine Tablets	Tablet: 10mg	No
Chlorphenamine Maleate Tablets	Tablet: 4mg	No
Prednisone Acetate Tablets	Tablet: 5mg	Prohibited in-competition
3. Anticonvulsants and Antispasmodics		
Diazepam	Tablet: 2.5mg	No
4. Anti-Infective Medications		
Amoxicillin Capsules	Capsule: 250mg	No
Amoxicillin and Clavulanate Potassium Tablets	Tablet: 250mg (Amoxicillin) / 125mg (Clavulanic Acid)	No
Cefaclor Capsules	Capsule: 250mg	No
Clindamycin Hydrochloride Capsules	Capsule: 150mg	No
Azithromycin Tablets	Tablet: 250mg	No
Metronidazole Tablets	Tablet: 200mg	No
Compound Sulfamethoxazole Tablets	Tablet: 400mg Sulfamethoxazole / 80mg Trimethoprim	No
Aciclovir Tablets	Tablet: 200mg	No
Oseltamivir Phosphate Capsules	Capsule: 75mg	No
4.1 Antifungal Medications		
Fluconazole Tablets	Tablet: 50mg	No
5. Anti-Migraine Medications		
Rizatriptan Benzoate	Capsule: 5mg	No

Capsules		
Flunarizine Hydrochloride	Capsule: 5mg	No
Carbamazepine Tablets	Tablet: 200mg	No
6. Iron Supplements		
Ferrous Succinate Tablets	Tablet: 100mg	No
7. Medications Affecting Coagulation		
Enoxaparin Sodium Injection	Pre-Filled Syringe: 0.4mL:4000 AxaIU	No
Tranexamic Acid	Tablet: 250mg	No
8. Cardiovascular Medications		
8.1 Anti-Angina Medications		
Nitroglycerin Tablets	Tablet: 0.5mg	No
Diltiazem Tablets	Tablet: 30mg	No
8.2 Anti-Hypertensive / Heart Failure Medications		
Amlodipine Besylate Tablets	Tablet: 5mg	No
Bisoprolol Fumarate Tablets	Tablet: 5mg	Prohibited in specific sports (refer to the List of WADA-Prohibited Substances). Prohibited In-Competition only in Automobile sports, Billiards, Darts, Golf, Mini-Golf. Prohibited both In- and Out-of-Competition in Shooting, Archery, Underwater sports.

		Permitted in all other sports both In- and Out-of-Competition.
Captopril Tablets	Tablet: 25mg	No
Enalapril Maleate Tablets	Tablet: 5mg	No
Losartan Potassium Tablets	Tablet: 50mg	No
8.3 Antithrombotic Medications		
Aspirin Enteric-Coated Tablets	Tablet: 100mg	No
Clopidogrel Bisulfate Tablets	Tablet: 75mg	No
Warfarin Sodium Tablets	Tablet: 2.5mg	No
8.4 Lipid-Lowering Medications		
Atorvastatin Calcium Tablets	Tablet: 20mg	No
9. Diuretics		
Furosemide Tablets	Tablet: 20mg	Prohibited
Spironolactone Tablets	Tablet: 20mg	Prohibited
10. Dermatological Topical Medications		
10.1 Antifungal Medications		
Terbinafine Hydrochloride Cream	Cream: 10g (1%)	No
10.2 Anti-Infective Medications		
Aciclovir Cream	Cream: 10g (3%)	No
Mupirocin Ointment	Ointment: 5g (2%)	No
Benzalkonium Chloride Solution	Solution: 150mL:0.15g (0.1%)/bottle	No
Benzalkonium Chloride	Patch: 0.5mg/patch × 100	No

Patches	patches	
10.3 Anti-Inflammatory and Antipruritic Agents		
Mometasone Furoate Cream	Cream: 0.1% * 15g/tube	No
Calamine	Lotion: 100mL	No
10.4 Acne Treatments		
Benzoyl Peroxide	Topical Gel: 15g:750mg (5%)	No
10.5 Massage and Physiotherapy Preparations		
Diclofenac Diethylamine Emulgel	Topical Gel: 20g:200mg (1%)	No
11. Gastrointestinal Medications		
11.1 Secretion Inhibitors		
Omeprazole Enteric-Coated Capsules	Capsule: 20mg	No
11.2 Antacids		
Hydrotalcite Chewable Tablets	Tablet: 500mg	No
11.3 Antiemetics and Antispasmodics		
Metoclopramide Hydrochloride	Injection: 1mL:10mg/ampoule	No
	Tablet: 5mg	No
Ondansetron Hydrochloride	Injection: 4mL:8mg/ampoule	No
Trimebutine Maleate Tablets	Tablet: 200mg	No
11.4 Laxatives		
Glycerol Enema	Solution: 20mL	No
Lactulose Oral Solution	Oral Solution:	No

	15mL:10g/bottle	
11.5 Medications for Diarrhoea		
Smectite Powder	Powder: 3g	No
11.6 Probiotics		
Live Combined Bifidobacterium, Lactobacillus and Enterococcus Capsules	Capsule: 210mg	No
12. Contraceptives, Hormones, and Endocrine Medications		
12.1 Contraceptives		
12.1.1 Emergency Oral Contraceptives		
Levonorgestrel Tablets	Tablet: 1.5mg	No
12.2 Insulin and Other Medications for Diabetes or Glycaemic Control		
Gliclazide Sustained-Release Tablets	Sustained-Release Tablet: 30mg	No
Glucose Powder	Powder: 82.5g Glucose	No
Insulin Injection	Injection: 10mL:400IU	Prohibited
Isophane Protamine Recombinant Human Insulin Injection	Injection: 10mL:400IU	Prohibited
Metformin Hydrochloride Tablets	Tablet: 500mg (as hydrochloride)	No
12.3 Thyroid Hormones		
Levothyroxine Sodium Tablets	Tablet: 50µg (as sodium salt)	No
13. Immunologicals		
Tetanus Immunoglobulin	Injection: 2.5mL: 250IU	No
14. Ophthalmic Preparations		
14.1 Anti-Infective Medications		

Aciclovir Eye Drops	Eye Drops: 8mL:8mg	No
Levofloxacin Hydrochloride Eye Drops	Eye Drops: 8mL (0.3%)	No
14.2 Artificial Tears		
Polyvinyl Alcohol Eye Drops	Eye Drops: 0.8mL:11.2mg/vial	No
14.3 Anti-Inflammatory Agents		
Tobramycin and Dexamethasone Eye Drops	Eye Drops: Dexamethasone 5mg, Tobramycin 15mg	No
14.4 Local Anaesthetics		
Proparacaine Hydrochloride Eye Drops	Eye Drops: 15mL:75mg	No
14.5 Mydriatics		
Compound Tropicamide Eye Drops	Eye Drops: 1mL:5mg	No
15. Mental Health and Behavioural Disorder Medications		
15.1 Medications for Depression		
Fluoxetine Hydrochloride Capsules	Capsule: 20mg (as hydrochloride)	No
Venlafaxine Hydrochloride Sustained-Release Capsules	Sustained-Release Capsule: 75mg (as hydrochloride)	No
15.2 Medications for Anxiety		
Diazepam	Tablet: 2.5mg	No
16. Sleep Disorder Medications		
Promethazine Hydrochloride Tablets	Tablet: 25mg	No

17. Medications Acting on the Respiratory Tract		
17.1 Anti-Asthmatics and Bronchodilators for COPD		
Beclometasone Dipropionate Inhalation Aerosol	Inhalation Aerosol: 50µg/actuation (as dipropionate)	No
Budesonide and Formoterol Inhalation Powder (II)	Inhalation Powder: 160µg + 4.5µg/actuation	Formoterol when administered by inhalation up to a maximum dose of 54 microgrammes over 24 hours and no more than 36 microgrammes in any 12-hour period is permitted both in- and out-of-competition. The presence in urine of salbutamol in excess of 1,000 ng/mL or formoterol in excess of 40 ng/mL is not consistent with therapeutic use of the substance. Unless the Athlete proves that the abnormal result is the consequence of the therapeutic inhalation of the maximum indicated dose of the substance through a

		<p>controlled pharmacokinetic study, the sample will be deemed to contain a Prohibited Substance and will be considered an Adverse Analytical Finding (AAF). All glucocorticoids are prohibited in-competition when administered by any injectable, oral [including oromucosal administration (e.g., buccal, gingival, sublingual)] or rectal route.</p>
Salbutamol Sulfate Inhalation Aerosol	<p>Metered Dose Inhaler (Aerosol): 100µg/actuation (as sulfate), 100µg*200 actuations</p>	<p>The maximum dose of inhaled salbutamol must not exceed 1,600 µg within 24 hours (starting from any dose) and 600 µg within any 8-hour period. It is permitted both in-competition and out-of-competition under these limits. Note: The presence in</p>

		<p>urine of salbutamol in excess of 1,000 ng/mL or formoterol in excess of 40 ng/mL is not consistent with therapeutic use of the substance. Unless the Athlete proves that the abnormal result is the consequence of the therapeutic inhalation of the maximum indicated dose of the substance through a controlled pharmacokinetic study, the sample will be deemed to contain a Prohibited Substance and will be considered an Adverse Analytical Finding (AAF).</p>
17.2 Antitussives		
Compound Dextromethorphan Hydrobromide Syrup	Syrup: 100mL	No
18. Diluents for Injection and Aseptic Cleaning		
Sodium Chloride Injection	Injection: 0.9% 10mL ampoule	No
Sodium Chloride	Injection: 0.9% 100mL	No

Injection	bag	
19. ENT Medications		
Beclometasone Dipropionate Nasal Spray	Nasal Spray: 50µg/actuation	No
Levofloxacin Ear Drops	Ear Drops: 10mL/vial	No
Oxymetazoline Hydrochloride Spray	Spray: 5mL:1.25mg (10mL/vial)	No
Normal Saline (0.9%)	Solution: 10mL:0.09g (0.9%)	No
20. Medications for Oral Diseases		
Hydrogen Peroxide Solution	Solution: 500mL (3%)	No
21. First-Aid and Pre-Hospital First-Aid Medications		
Medications in this section are for use by qualified emergency medical personnel only. Note: WADA permits the use of any medication required in an emergency; however, if a prohibited substance is prescribed, a retroactive TUE must be applied for.		
21.1 General Anaesthetics		
Propofol Emulsion Injection	Injection: 10mL:100mg	No
21.2 Premedication and Sedation for Short Procedures		
Atropine Sulfate Injection	Injection: 1mL:0.5mg	No
Midazolam Injection	Injection: 2mL:10mg	No
Naloxone Hydrochloride Injection	Injection: 1mL:0.4 mg	No
21.3 Anti-Allergy Medications		
Note: Where appropriate, these medications should be used alongside intravenous fluids		
Dexamethasone Sodium	Injection:	Prohibited when

Phosphate Injection	1mL:5mg/ampoule	<p>administered by injection, oral, or rectal routes;</p> <p>Permitted when administered by inhalation or topical application.</p> <p>Prohibited In-Competition except in an emergency, which require a retroactive TUE.</p>
Adrenaline Hydrochloride Injection	Injection: 1mL:1mg/ampoule	<p>Intravenous injection, subcutaneous injection, intramuscular injection, injection by intravenous drip:</p> <p>Prohibited In-Competition only.</p> <p>Topical application: Permitted both In- and Out-of-Competition.</p> <p>Topical use (e.g., nasal, eye) or when used with local anesthetics: Permitted both In- and Out-of-Competition.</p>
21.4 Antiarrhythmics and Cardiac Arrest Medications		
Adrenaline	Injection:	Intravenous injection,

Hydrochloride Injection	1mL:1mg/ampoule	subcutaneous injection, intramuscular injection, injection by intravenous drip: Prohibited In-Competition only. Topical application: Permitted both In- and Out-of-Competition. Topical use (e.g., nasal, eye) or when used with local anesthetics: Permitted both In- and Out-of-Competition.
Amiodarone Hydrochloride Injection	Injection: 3mL:150mg	No
21.5 Muscle Relaxants (Peripheral Acting)		
Rocuronium Bromide Injection	Injection: 2.5mL:25mg/vial	No
22. Parenteral Fluids		
Mannitol Injection	Injection: 250mL:50g (20%)	Prohibited
0.9% Sodium Chloride Injection	Injection: 100mL:0.9g (0.9%)	Prohibited only if intravenous infusion and/or injection exceeds 100mL per 12 hours, unless administered during hospital treatment, surgical procedures, or

		legitimate clinical diagnostic investigations
23. Antibacterial Drugs		
Levofloxacin Tablets	Tablet: 0.25g	No
