SVEIN RASMUSSEN

Are you an Olympic windsurfer, a seasoned Techno rider or a freerider looking at taking part in local events? Come fly with iQFOIL. Course racing, GPS, slalom and long distances. Let's test what formats are best suited in your local sailing area. We at Starboard realize that being associated with the iQFOIL class means new responsibility, expectations and determination. A whole new chapter is about to take shape and as we are just getting started, we need your help and guidance to create positive environment that can grow, prosper and become the most exciting windsurfing community of all time. Let's also figure out ways to unite in protection of our oceans while having loads of fun foiling into the future.

Please do contact us with your ideas: iqfoil@star-board.com

TIESDA
YOU

REMI
VILA

The Race foil that started it all.

It started with weekend windsurfers. Then came Formula racers, PWA racers and the Olympic community.

From this opportunity was born the iQFOIL vision: **To inspire windsurfers of all levels** - weekend racers, professionals and Olympians alike - to race together at a wide range of exciting events, on fair, simple and affordable foiling equipment of the highest performance.

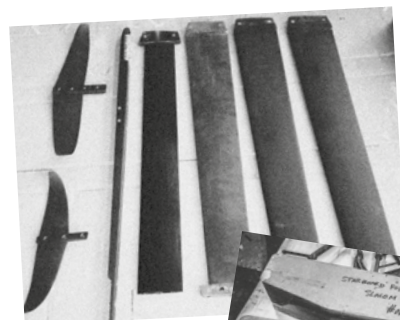

One board, one sail, one boom, one foil, one fin: you can race with your friends every weekend or go for gold every quadrennial. There's never been such a unifying opportunity in windsurfing and that's the most exciting part about the iQFOIL project.

Tiesda You,
Founder, Starboard Foils

With the uprising of the iQFOIL, we bring you the most exciting and up to date equipment to the Olympics. We offer an affordable package that brings high level racing performance in all conditions.

Let's bring the fun again to the Olympic scene and beyond.

Remi Vila
iQFOIL development team

We have stopped using virgin plastic packaging on our boards, but the board's styrofoam, paint, epoxy and EVA come from fossil fuel/oil.

With the help of Starboards' internal plastic tax, we fund the Plastic Offset Program (POP).

After calculating the plastic footprint of the iQFOIL, it was settled that the Starboard Plastic Offset Program will collect 2.4 kg of plastic trash for each iQFOIL board sold. Our target this year is to collect a total of 50,000 kg from beaches around our test center in Thailand. We will keep on picking plastic trash until regulations are in place to stop the destruction of our oceans.

100X
CARBON NET
POSITIVE

HEYERDAHL CLIMATE PARKS

We want to share that the climate crises partially come from deforestation. We need to regenerate forests for the challenging years ahead. Sea trees or mangroves are important players as they absorb more CO₂ than any other sources while also helping clean the ocean, and sheltering coastal villages from heavy storms.

We are partnering in replanting one billion mangrove trees over the next 10 years. The pilot project in the Thor Heyerdahl Climate Park with six million trees is already finished.

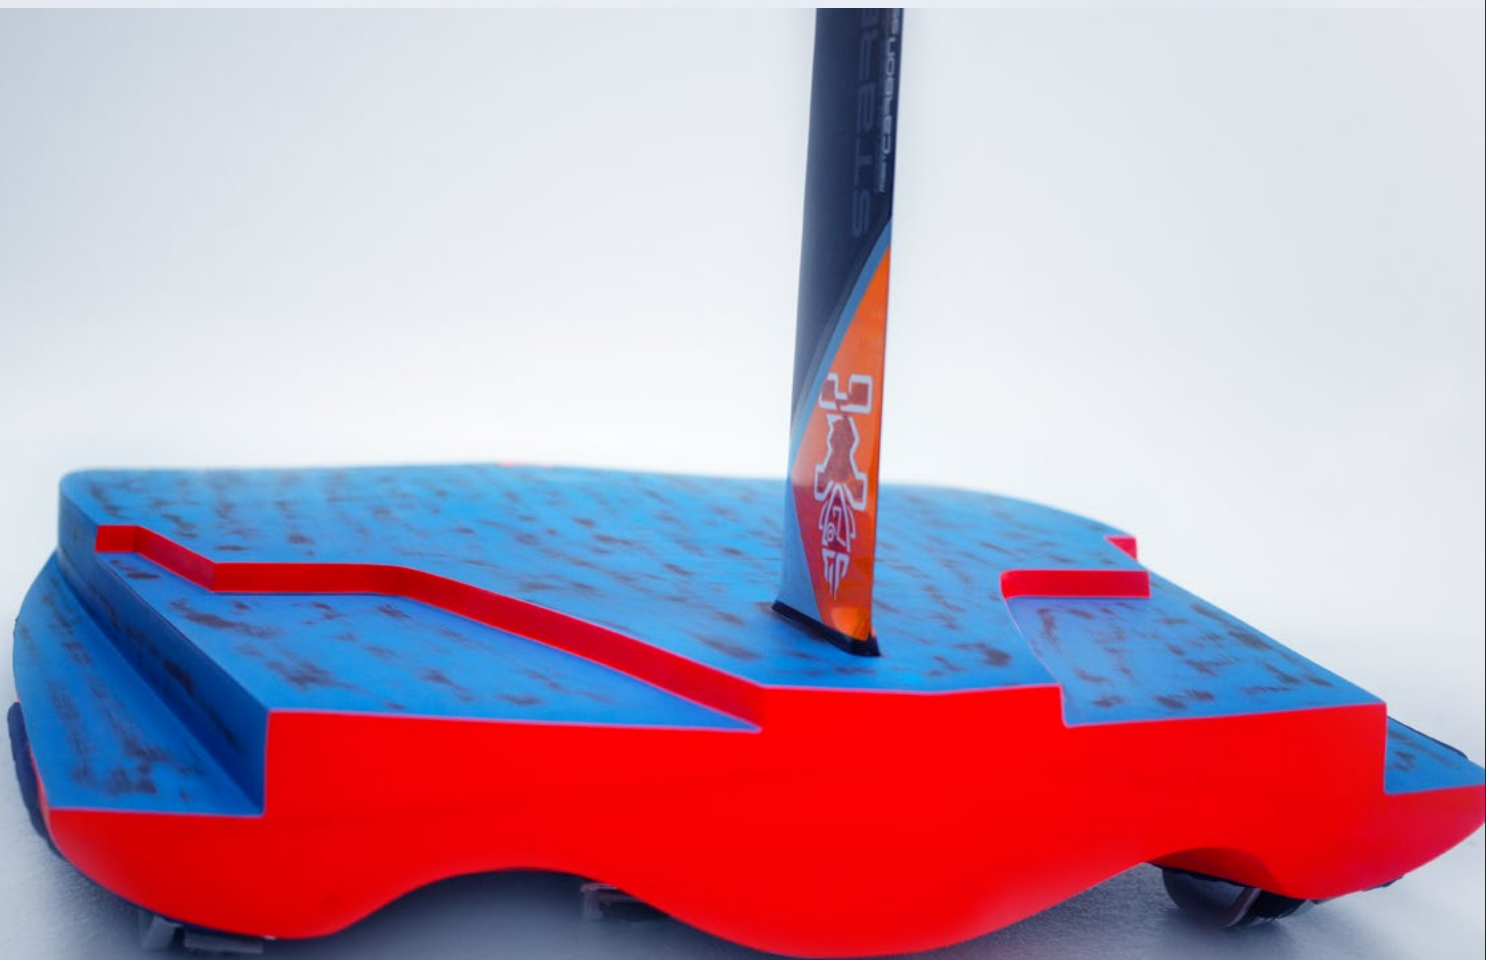

Calculating the total carbon footprint of an iQFOIL based on production and raw materials, we found that it creates 0.1 ton of CO₂.

For each Olympic Starboard iQFOIL we will plant 10 trees, absorbing 10 tons CO₂ over 20 years, making the iQFOIL board 100 x climate net positive.

Every tree counts and with your help we can inspire others to follow suit.

Severne HGO

Severne mast, mastbase, mast extension and boom

To inspire windsurfers of all levels - weekend racers, professionals and Olympians alike - to race together at a wide range of exciting events, on fair, simple and affordable foiling equipment of the highest performance.

PACKAGE MEN

€ 6829 excl. VAT

- Starboard iQFOIL 95 Carbon Reflex
- Starboard Foils iQFOIL Carbon
- Drake iQFOIL 68
- Severne HGO 9.0
- Severne Apex 530
- Severne Enigma 190-240
- Severne SDM Extension 36
- Severne Mast Base
- Starboard iQFOIL Travel Bag
- Severne Rig Bag

PACKAGE WOMEN

€ 6729 excl. VAT

- Starboard iQFOIL 95 Carbon Reflex
- Starboard Foils iQFOIL Carbon
- Drake iQFOIL 66
- Severne HGO 8.0
- Severne Apex 490
- Severne Enigma 190-240
- Severne SDM Extension 36
- Severne Mast Base
- Starboard iQFOIL Travel Bag
- Severne Rig Bag

PACKAGE YOUTH

€ 4259 excl. VAT

- Starboard iQFOIL 95 Starlite
- Starboard Foils iQFOIL Aluminium
- Drake iQFOIL 66
- Severne HGO 8.0
- Severne Apex 490
- Severne Alu Race
- Severne SDM Extension 36
- Severne Mast Base
- Starboard iQFOIL Travel Bag
- Severne Rig Bag

Starboard
iQFOIL 95 Carbon Reflex

95cm wide for convenient air travel, designed to take off smoothly from 6 knots, powerful in light winds, controllable in strong winds, convertible to fin mode and built in durable and lightweight Carbon Reflex technology.

MSRP € 2415 excl. VAT

Starboard
iQFOIL 95 Starlite

The Youth version uses the same shape as the Carbon Reflex model with extra durability and a more affordable price point.

MSRP € 1415 excl. VAT

Starboard Foils
iQFOIL Carbon foil set

Front Wing: 900 | Tail Wing: 255 -2° | Fuselages: 95 Plus and 115 Plus | Mast: iQFOIL 95cm Carbon | Team Bag Size L

MSRP € 2299 excl. VAT

Starboard Foils
iQFOIL Aluminium foil set

Starboard Foils iQFOIL Aluminium
Front Wing: 900 | Tail Wing: 255 -2° | Fuselages: 95 Plus and 115 Plus | Mast: 95cm Aluminium V6 | Team Bag Size L

MSRP € 1249 excl. VAT

Drake
iQFOIL 68

Full carbon racing fin designed for upwind downwind racing in high wind. Rake angle 87°

MSRP € 433 excl. VAT

Drake
iQFOIL 66

Full carbon racing fin designed for upwind downwind racing in high wind. Rake angle 87°

MSRP € 433 excl. VAT

Severne
HGO 9.0

Designed to feel light in the hands, responsive and with an expanded wind range, the Olympic edition of the HyperGlide works with foil and fin.

MSRP € 816 excl. VAT

Severne
HGO 8.0

Designed to feel light in the hands, responsive and with an expanded wind range, the Olympic edition of the HyperGlide works with foil and fin.

MSRP € 775 excl. VAT

Severne
Apex 530

90% Carbon mast for extra durability.

MSRP € 566 excl. VAT

Severne
Apex 490

90% Carbon mast for extra durability.

MSRP € 484 excl. VAT

Severne
Enigma 210-250

100% Pre-preg Carbon, 30mm diameter with oversized front end and tail piece.

MSRP € 1179 excl. VAT

Severne
Alu Race Boom

T8 aluminium monocoque construction with 29mm diameter and an oversized tail piece.

MSRP € 269 excl. VAT

Severne
SDM Extension 36

MSRP € 93 excl. VAT

Severne
Mast Base

MSRP € 58 excl. VAT

Starboard
iQFOIL Travel Board Bag

MSRP € 222 excl. VAT

Severne
HyperGlide Rig Bag

MSRP € 181 excl. VAT
